Hi,

Please give some advice regarding which hardware i should chose to run openvz.

Config 1:
AMD Athlon 64 X2 6000+ Dual Core
8 GB DDR2 RAM

Config 2:
Dual-Core AMD Opteron(tm) Processor 1218
4 GB DDR2 RAM

I know 8GB RAM is better, but how about the CPU? Should i go with the 6000+?

Thanks,
Radu
