Hello,

I cannot start the VE, here some command:

[root@dedicated ~]# vzctl create 112 --ostemplate centos-4-i386-default Unable to get full ostemplate name for centos-4-i386-default Creating VE private area (centos-4-i386-default)
Performing postcreate actions
VE private area was created

[root@dedicated ~]# vzctl start 112 Starting VE ... VE is mounted Unable to set capability: Operation not permitted Unable to set capability VE start failed VE is unmounted

Operating system is CentOS 4.5

[root@dedicated ~]# uname -a Linux dedicated.d.net 2.6.18-8.1.14.el5.028stab045.1PAE #1 SMP Mon Oct 1 13:46:57 MSD 2007 i686 i686 i386 GNU/Linux
