Subject: Re: ipt_state missing in 2.6.16?
Posted by jdonalds on Tue, 28 Mar 2006 13:40:20 GMT

Sure, using a self compiled 2.6.16 kernel using patches and the smp kernel config(since I needed to compile zaptel drivers).

What do you mean xt_state is renamed ipt_state? Where. Did you rename it or link to it?

tried to pass xt_state through to VPS by adding it to the line in vz conf...I am not where I can get the config files right now...is their a simple fix?
