Subject: Re: Why use OpenVZ?
Posted by RobinVossen on Thu, 08 Nov 2007 13:02:48 GMT

I am reading the Manual at the same time as installing
but I cant find a how to install it on debian file :/
So I was working on Gentoo.
But I just found out that my Network card isnt supported by *nix..
So, thats kinda crap.
Anyhow, Ill just keep searching for how to install on Debian.
And sorry if I read over something in the manual I am very Dyslectic.
