Subject: Re: Kernel compilation from source - yum ovzkernel dependency
Posted by blunt on Sat, 10 Nov 2007 14:54:30 GMT

my mistake...

I had been trying to use yum, and could not understand why it wouldn't work with -nodeps and that help for yum never mentioned any --nodeps option...

now I understand, -nodeps is for rpm...

It all works now.

thanks kir
