hi,

I have a openvz vps in a CentOS 4.4 with DirectAdmin, when I add a new user I got this error:

```
setquota: Cannot get info for user quota file from kernel on /dev/simfs: No such process setquota:
Can't initialize quota on
```

I am using: 2.6.9-023stab044.4-smp #1 SMP Mon May 28 23:18:17 MSD 2007 i686 i686 i386
GNU/Linux

any help to fix that?

thanks!
