Subject: PATCH for small cron prob. in /etc/init.d/vz
Posted by proto on Sat, 17 Nov 2007 07:06:07 GMT

The init script in vzctl-3.0.18 installs the file:
  /etc/cron.d/vz
as part of its startup, what is strange as that on CentOS5 at least the
last mod of the folder /etc/cron.d is NOT updated!

What this means its that CRON does not know about the new file as as
such does not run it.

Hope this info helps,

Here is a quick patch to fix the prob:

--- /etc/init.d/vz_orig   2007-07-31 16:54:05.000000000 -0400
+++ /etc/init.d/vz 2007-11-17 01:56:30.000000000 -0500
