Dear Mr.Ash

Please download vzctl sources:
 http://download.openvz.org/utils/vzctl/3.0.18/src/vzctl-3.0. 18.tar.bz2
untar it and apply the patch pointed in my previous letter.
Then run configure and then make.

If it is too complex for You, I would recommend You to wait until next vzctl release. Good news is that Kir going to build it soon.

Thank you,
Vasily Averin
