It's very strange...

1) wasn't /dev/tty0 somehow deleted ? Might be after the VE reboot? udev?

2) i wonder why tty0 has numbers 5:1 ? Is it correct? My node has tty0:

```
crw--w---- 1 root 4, 0 Nov 30 16:26 tty0
```

It's also RHEL4.4 and tty0 was created by MAKEDEV.
