Subject: Re: howto detect veth ip address
Posted by khorenko on Tue, 18 Dec 2007 08:47:31 GMT

Hello Dietmar,

well, looks like "vzctl exec" is the only way to get the access to the veth settings inside a VE.

Well, slight speedup you can get if you use "ip" command instead of "ifconfig".

Hope using "vzctl exec" is not so slow, isn't it?
