Hi Pablo,

yep, since the last git commit to vzmigrate (->

<http://git.openvz.org/?p=vzctl;a=commitdiff;h=ebd5fb00a4eb0134d7ef4ebfdc0b6ae43d07d8fd>), the extended test command was removed, so change at line 382:

if [ \$? != 20 && \$? != 21 && \$? != 0 ]; then

to:

if [[ \$? != 20 && \$? != 21 && \$? != 0 ]]; then

Bye,

Thorsten
