mysqld is running and listen not only to 127.0.0.1 (=localhost!) ?

Hello,

I did comment out the line in the my.cnf
bind-address=127.0.0.1

But now I become the error:

```
[email]root@server6[/email]:/# telnet 192.168.1.2 3306
```

```
Trying 192.168.1.2...
```

```
Connected to 192.168.1.2.
```

```
Escape character is '^['.
```

```
DHost '192.168.1.1' is not allowed to connect to this MySQL serverConnection closed by foreign host.
