Subject: Problems with wget inside vps
Posted by crashlab on Mon, 07 Jan 2008 16:49:09 GMT

I've installed OpenVZ on debian etch.
I've created a vps with debian etch template, but I've a problem.
When I try to download something into a vps with wget, after some second, download stop.
Why?? How can i solve this problem?
