Hi, are you sure that you build a Bridge in your HN machine ?

Follow this : [http://wiki.openvz.org/Using\\_private\\_IPs\\_for\\_Hardware\\_Nodes](http://wiki.openvz.org/Using_private_IPs_for_Hardware_Nodes)

Also, make sure your iptables on HN allow VE to forward packets :  
[http://wiki.openvz.org/Bridge\\_doesn't\\_forward\\_packets](http://wiki.openvz.org/Bridge_doesn't_forward_packets)

Finally, can you ping your VE from HN AND what about ping VE from any computer outside it zone

Enjoy !
