Subject: Re: /dev/pty always gone
Posted by maratrus on Wed, 16 Jan 2008 12:15:52 GMT

Hi,

I have not yet fully understood the problem. I have only suppositions how to workaround it.
But:
1. I suppose that udev package is installed inside your VE.
2. Can you please attach /sbin/start_udev file from your VPS?
3. 'rpm -qf /lib/udev/devices/' from inside VPS.

Thank You!
