Hi,
I'm getting this after upgrade to 3.0.22

```
srvr:/# vzctl stop testlink
Stopping VE ...
VE was stopped
/usr/lib/vzctl/scripts/vps-functions: line 146: [: del: integer expression expected
```

```
ii vzctl                                3.0.22-2                                server virtualization
solution - control tools
srvr:/# vzctl start testlink
Starting VE ...
VE is mounted
Adding IP address(es): 192.168.99.82
/usr/lib/vzctl/scripts/vps-functions: line 146: [: add: integer expression expected
```

and this:
["\$1" -eq "add"]
(test seems to use = for strings and -eq for integers, which is strange,since
I do recall using -eq specifically for strings)
