Still not working with same error:
error: Couldn't get http://git.openvz.org/pub/linux-2.6-openvz/refs/tags/v2.6.13-rc1 for tags/v2.6.13-rc1
Couldn't resolve host 'git.openvz.org'
error: Could not interpret tags/v2.6.13-rc1 as something to pull
[root@jonsmirl home]#

I also tried to pull it down as an update to the vanilla Linus tree.

```
[root@jonsmirl openvz]# cg update openvz
