Subject: [RFC][PATCH 1/4]: Factor out PTY index allocation

Factor out the code used to allocate/free a pts index into new interfaces, devpts_new_index() and devpts_kill_index(). This localizes the external data structures used in managing the pts indices.

Changelog:
- Version 0: Based on earlier versions from Serge Hallyn and
  Matt Helsley.

Signed-off-by: Sukadev Bhattiprolu <sukadev@us.ibm.com>
