Subject: Re: High numiptent, any problems?
Posted by ricoche on Sat, 09 Feb 2008 23:16:05 GMT

Hi there,

I'm encountering this same problem with numiptent values reaching 714 now. How would I add the USE_DS and USE_RD to the host's iptables? I'm not sure how to do that or even if it's necessary, but I'll do some research on that. Right now I have my limit bumped up to 850 so it doesn't take down the VE.

Thanks,

Jim
