I had the same problem but I see there is a bug report for that:

http://bugzilla.openvz.org/show_bug.cgi?id=802

I did have the fair scheduler on and after disabling this:

```
# zgrep CONFIG_FAIR /proc/config.gz  
# CONFIG_FAIR_GROUP_SCHED is not set
```

it works.

```
# uname -a  
Linux jmd1 2.6.24-openvz #1 SMP PREEMPT Sun Feb 10 23:42:00 EST 2008  
x86_64 Dual Core AMD Opteron(tm) Processor 285 AuthenticAMD GNU/Linux
```

```
# vzlist  
  VEID    NPROC STATUS IP_ADDR    HOSTNAME  
  101      3 running 192.168.1.250  vs_pdc
```

John
