There's a more elegant way to modify the default VM type that's used on Linux. This can be set in /etc/java-1.5.0-sun/jvm.cfg

Mine now looks like:

```
#-client IF_SERVER_CLASS -server  
-client KNOWN  
-server KNOWN  
-hotspot ALIASED_TO -client  
-classic WARN  
-native ERROR  
-green ERROR
```

Greets
