There's a more elegant way to modify the default VM type that's used on Linux. This can be set in /etc/java-1.5.0-sun/jvm.cfg

Mine now looks like:

```
#-client IF_SERVER_CLASS -server
```

```
-client KNOWN
```

```
-server KNOWN
```

```
-hotspot ALIASED_TO -client
```

```
-classic WARN
```

```
-native ERROR
```

```
-green ERROR
```

Greetings

Christian
