Subject: IPSec-Server in a VPS
Posted by schogge on Thu, 13 Mar 2008 23:31:55 GMT

Hi all,

I would like to install a VPN-Server inside a VPS. Is that supported and if so, what needs to be done?

The wiki is talking about installing an IPSec-Client (vpnc) and also OpenVPN-Server. But I want to use an IPSec-Server like Openswan or racoon.

Thanks
