Subject: IPTables LOG mod
Posted by Danny Terweij on Fri, 14 Mar 2008 06:46:40 GMT

Hi,

I have a customer with a question in his VE, he needs the LOG
module/function for IPTables.
Do i have to do something on the server itself? or can he do something in
his VE ?

Using HyperVM/OpenVZ on Centos 5.1 with latest OpenVZ rhel5 kernel.

Danny.
