It's called diff-ovz-028.18-deb and I took it from the  
kernel-patch-openvz debian package maintained by Ola Lindqvist.

You can have a look at the diff, it's almost the same as the one in  
upstream directory within

[http://ftp.de.debian.org/debian/pool/main/k/kernel-patch-openvz/kernel-patch-openvz\\_028.18.1etc-h5.tar.gz](http://ftp.de.debian.org/debian/pool/main/k/kernel-patch-openvz/kernel-patch-openvz_028.18.1etc-h5.tar.gz)

Almost all timestamps in the diff file are around 2007-03-09 17:52

Sorry, I'm attaching it now.
