It's called diff-ovz-028.18-deb and I took it from the
kernel-patch-openvz debian package maintained by Ola Lindqvist.
You can have a look at the diff, it's almost the same as the one in
upstream directory within
http://ftp.de.debian.org/debian/pool/main/k/kernel-patch-openvz/kernel-patch-openvz 028.18.1etc
h5.tar.gz
Almost all timestamps in the diff file are around 2007-03-09 17:52

Sorry, I'm attaching it now.
