Subject: Re: Kernel Panic ! [SOLVED]
Posted by zenny on Tue, 25 Mar 2008 06:59:38 GMT

To solve, what I did was:

#mv /lib/tls /lib/tls-notworking
#reboot

The kernel-panic disappeared!

Then I just removed the directory after the normal reboot:

#rm -rf /lib/tls-notworking

Hope this could be helpful for someone having similar problem.
