Hello,

I try to migrate a VE, but got this error, why vzmigrate still using port 22 while I already specify other port?

```
# vzmigrate --ssh="-p 8888" -r no -v host.name.net 10
```

```
OPT:--ssh=-p 8888
```

```
OPT:-r
```

```
OPT:-v
```

```
OPT:host.name.net
```

```
Starting migration of VE 10 on host.name.net
```

```
OpenVZ is running...
```

```
  Loading /etc/vz/vz.conf and /etc/vz/conf/10.conf files
```

```
  Check IPs on destination node: xxx.xxx.xxx.xxx
```

```
Preparing remote node
```

```
  Copying config file
```

```
ssh: connect to host host.name.net port 22: Connection refused
```

```
lost connection
```

```
Error: Failed to copy config file
```

Best Regards,  
Markus
