Subject: Re: 3ware 8506 - CentOS 4.5 or 5.0 - OpenVZ Stock Kernel - Unstable
Posted by vaverin on Sun, 30 Mar 2008 04:58:49 GMT

Matt,

due some strange reasons our QA has not tested ovz kernel together with vz kernel. therefore ovz kernel is under testing now and I hope it will be released on the next week.

But you can use vz kernel 028stab053.10 on openvz node.

thank you,
Vasily Averin
