Subject: OpenVPN template or help needed
Posted by sammy08 on Fri, 04 Apr 2008 11:21:30 GMT

Hello All,

I am a newbie to VPS and have been trying to get OpenVPN 2.1 working on my VPS without success due to my limited experience with the linux command line but I am learning fast.

If anyone of you has a template for OpenVPN and is willing to share for free or otherwise please PM me.

Thanks,

Sammy08
