Subject: VZ droping TCP
Posted by andrew_hack on Sun, 13 Apr 2008 11:15:09 GMT

Hi,

I found strange problem using mysql on VZ.
Every second connection is not unsuccessful and returning error:
ERROR 2013 (HY000): Lost connection to MySQL server at 'reading initial communication packet', system error: 0

Also tried nmap to this VZ - every second scan returning no result.

The ping running well without dropping packets.

Any TCP connection to the HN is fine.

Any suggestions?

Thank you.
