Subject: [SOLVED] openvz kernel hangs on fujitsu-siemens blade rack
Posted by eerov on Mon, 14 Apr 2008 10:51:37 GMT

openvz hangs on boot on fujitsu-siemens blade rack unit.
After keyboard and mouse is detected, system just hangs / waits for ever.

Any solution to this. System is running 64bit version of centos 5.1
with latest stable openvz-kernel. Blade is with 12GB of memory and
fiber switch.

Any help?

greetings,
eerov@welho.com
