Subject: openvz and openafs
Posted by liamr on Wed, 03 May 2006 19:37:45 GMT

Has anyone gotten openafs built on a machine using the openvz 2.6.8 patched kernel? We need openafs for our hosting environment, but can't get it to build on the patched kernel. Seems to work w/ the normal unpatched 2.6.8 kernel sources.

thx
Liam
