""If is any option from start to make him to answer only from localhost or local lan ip not to all.""

Dahas I do not understand what you are trying to do!! can you explain further

what is the output of 'uname -r'?

if you did not get the fix done from curx can you send me your email so i send you webvz with the fix

curx: Thanks for the fix. What are the openvz kernel beside the 3 that I used?

Thanks
