webbytech wrote on Mon, 28 April 2008 20:26As long as you can run apache/php/mysql on Debian it should work however it would have to be a special release based on how Debian tkaes commands via ssh

OK, this is nice to hear.

But without any (beta)release we are not able to test this.

When can we expect a release ?

Will you include Xen also in you panel later on ?
