I put the following in /usr/share/vz/dists/scripts/debian-add_ip.sh:

```
if [ -f ${CFGFILE}.firewall ]; then
    FWALL=`cat ${CFGFILE}.firewall`
    echo -e "pre-up ${FWALL}" >> ${CFGFILE}.bak
fi
```

Also, there's a typo in the script. Search for /dev/nul. It should be /dev/null.
