```
# /sbin/iptables -t nat -A PREROUTING -p tcp --dport 2525 -j REDIRECT --to-ports 25
iptables v1.3.0: can't initialize iptables table `nat': Table does not exist (do you need to insmod?)
Perhaps iptables or your kernel needs to be upgraded.
```

```
# /sbin/iptables -L -t nat
iptables v1.3.0: can't initialize iptables table `nat': Table does not exist (do you need to insmod?)
```

```
# iptables -L -t nat
Chain PREROUTING (policy ACCEPT)
target    prot opt source                destination
```

```
Chain POSTROUTING (policy ACCEPT)
target    prot opt source                destination
```

```
Chain OUTPUT (policy ACCEPT)
target    prot opt source                destination
```

```
# lsmod | grep nat
iptables_nat      26492  2
...
```
