Hi,

Quote:
HN: IP XX.185.176.27
...
i switch the IP on the VPS to XX.185.176.27

Do HN and VPS have the same IP address?

//----------//-------------//----------//------------
It could be many reasons:

- firewall on the HN rejects traffic
- your network configuration doesn't allow to set random IP (your router can reject such kind of traffic)

Without additional details it's very difficult to find out the reason.
Please look at this page
 http://forum.openvz.org/index.php?t=tree&goto=27545& #msg_27545
May be additional information can help us. Thank You.
