
Subject: [PATCH 1/2] cryo: Fix option -l
Posted by [Benjamin Thery](#) on Mon, 09 Jun 2008 14:47:19 GMT
[View Forum Message](#) <> [Reply to Message](#)

This tiny patch fixes the handling of option -l.
'l' must be added to the getopt() call and the subsequent switch{} if we don't want to exit too soon.

This makes the following command works:

```
$ cr -l -t test.cry
```
