###

container : (Debian ?)

root@test:/# ip route list table all

local 75.125.210.115 dev venet0 table local proto kernel scope host src 75.125.210.115

###

hostnode : (RHEL)

[root@dreamintsadecv cache]# ip route list table all

75.125.210.115 dev venet0 scope link

(...)

local 75.125.210.115 dev eth0 table 255 proto kernel scope host src 75.125.210.114

(...)

@cesurasean:

Have you configured a eth0:x alias on your hostnode with the same ip like your container ???
