Subject: Re: undump failed: Invalid argument Posted by Andrey Mirkin on Mon, 16 Jun 2008 05:50:05 GMT View Forum Message <> Reply to Message

Hello,

Can you please increase CPT log level on source and destination servers with help of following commands:

echo 3 > /proc/sys/debug/cpt echo 3 > /proc/sys/debug/rst

And try migration again.

Also please post here output of following command on destination server: cat /proc/rst
