youp wrote on Tue, 06 February 2007 11:50i have a similar error :

```
-> vzctl enter 133
entered into VE 133
mesg: error: tty device is not owned by group `tty'
```

This is about bad group ownership of files. I guess you have to do something like:

```
vzctl exec 133 'chgrp tty /dev/ttyp* /dev/ptyp*'
```
