Hello all,

My name is Midori Sugara. I work for implementing cpu resource management system on Linux kernel. I had already implemented cpu and memory resource management system named CABI.

Now we are trying to re-implement this system by cgroup mechanism.

This project is now work in progress.

I hear cgroup meetnig will be held in Ottawa Linux kernel symposium, and I would like to attend this meeting for sharing latest informations and future roadmap of cgroups.

Could I attend the meeting?

Best regards,

Midori Sugaya

Project CABI: <http://osrg.dcl.info.waseda.ac.jp/~doly/cabi/>
