Hello the
cd /vz/template/cache

wget http://download.openvz.org/template/precreated/centos-4-i386 -default.tar.gz

try to make cache but the command not working

```
[root@vps ~]# vzyum 135 install yum  
ERROR: No such OS template: install
```

```
[root@vps ~]# vzpkgcache centos-4-i386-default  
ERROR: OS template centos-4-i386-default not found
```

```
[root@vps ~]# yum install vztmpl-centos-4.i386  
Setting up Install Process  
Setting up repositories  
Reading repository metadata in from local files  
Excluding Packages in global exclude list  
Finished  
Parsing package install arguments  
Nothing to do
```

mmm what i will do ? how can fix this problem ?
