I replaced upstart with sysvinit in my Feisty template, from which I create all my VEs. This strategy also works for Gutsy VE's, but I never looked closer to see if Gutsy VE's would work without changing out upstart for sysvinit.

Here's one link. Several more via google.  
<http://ubuntuforums.org/showthread.php?t=456414>.

Best,  
Steve
