Perhaps it is in English but you are missing some fonts?

I have some GUI OS Templates I've made. I'm not sure how to fix your problem (I'd have to login and poke around to get a clue)... but I can provide you with a known working OS Template if you like. Feel free to email me and I'll give you a URL.

I don't post my GUI OS Templates to the contributed pre-created OS Templates because they are rather large.
