mikep wrote on Fri, 04 July 2008 00:18Hi again, not my kvm. Also I have not phisical access to the server, unless I drive 400 Km.

Well, that's not good. Can you please at least do a printscreen from the KVM when the kernel panics?

Can you also provide me an access to the node via PM? i do not promise i can understand the problem without logs but i'll try to.
