Subject: rsync to cone VPS - Urgent for me. Posted by abhishek jain on Mon, 15 May 2006 17:56:45 GMT View Forum Message <> Reply to Message

Dear Friends,

Thanks all i need to clone a VPS, one VPS is a running VPS over whom i have root access only and is hosted on server of which i do not have root access.

Now i want to clone this VPS on to a new VPS (the server of which i have root access), I mean i want the VPS to be moved to mine Server. How to do so,

I think rsync can be used , but i do not know how to use that ,pl . guide me towards that.

Thanks,

Jain
