Hi,

there are some functions changed in 2.6.24 so that the drbd does not compile against it "as is" ... I tried to patch out all things I found not working and at least DRBD now compiles. It still has warnings, maybe I'll look a little deeper into that later.

I attach the patch to this posting, maybe someone likes to help me testing if it works. I'll start testing tonight and I'll keep you informed ... hopefully about success

Best regards
Dusty
