Linux teste.cbras.com 2.6.8-022stab045.1 #1 Fri Oct 28 16:31:19 MSD 2005 i686 GNU/Linux

I've managed to fix the message System bootup in progress - please wait by executing /etc/init.d/rmnlogin. Also the df showing the current amount by adding simfs / simfs rw 0 0 to the /etc/mtab, but everytime I start the VPS I have to execute /etc/init.d/rcS and everytime I have to add simfs / simfs rw 0 0 to /etc/mtab. Isn't there a way to make openvz execute those commands everytime a debian VPS is started?
